A day of work and fun.

Lift your head high

Where there is great difficulty, there are also
great
opportunities. Where there is sorrow, there
is also much
possibility for real joy.

In places of darkness, even a small light can
make an
enormous positive difference. When the
situation seems
hopeless, that's precisely when acting on
hope can turn
things around.

The greatest achievements often have their
origins in the
most complicated and perplexing problems.
By accepting the
possibility of dreadful failure, people are
able to create
magnificent success.

When it seems that no options remain, that's
when a
breakthrough is about to happen. Each
setback along the way
makes the eventual success that much more
precious and
valuable.

No matter how good or how difficult life
may be now, there
is always a realistic and accessible way to
make it better.
For you can learn, you can adapt, you can
grow stronger, and
you can take effective action to move
forward.

Whatever may be, whatever may happen, lift
your head high
with thankfulness and enthusiasm. For when
you so choose,
the best is yet to come.
