## INCREASING OUR MEMBERSHIP:

Around the world, Kiwanis clubs make their communities better through more than 6 million hours of service each year. Every member represents 36 hours that improve lives every year. Think about what could happen if we all shared our Kiwanis stories—and inspired others to become a part of our movement to improve the world.

In addition to their hearts and hands, new members can bring new ideas, leadership and enthusiasm. Here are some tips for inspiring more people to join your Kiwanis club.

You don't need to know everything about Kiwanis. You just need to start with what it means to you—and then share that story, connecting on a personal level about addressing community needs.

After all, 74% of members joined a Kiwanis club because someone invited them—and for 48% of them, it was a friend or relative.

### A guide to engaging new members, sponsors and partners

What's the best way to attract new people to your Kiwanis club? By grabbing their interest—and respecting their time. Put together a “one-minute speech” by thinking of answers to a few simple questions.

#### **Why my club?**

Think about what you love most about your club—and your community. Consider how the two matter to each other.

#### **What's our community impact?**

Pick the service project that makes you proudest of your club. And think of a young person—or group—your club has mentored.

#### **How do we make an impact?**

By working together with people in our community who care. More hearts and more hands mean more opportunities for service and partnership.

#### **Other tips**

Nothing attracts a new member like a happy member. Be sure to:

- Practice your speech.
- Listen to the other person.
- Maintain eye contact.
- Smile and speak firmly.
- Most important of all: Invite him or her to a meeting or service project.

#### **People to consider:**

- Family and friends
- Coworkers
- Local business owners
- Parents of Service Leadership Program members
- Neighbors
- Clients
- Fellow church members
- Fellow parents (PTO, Little League, etc.)
- Teachers and principals
- Insurance agents, accountants, bankers and other providers...

## INTERESTING FACTS ABOUT THE WORLD WE LIVE IN

### **Where The U.S. Gets Its Oil**

Today, the U.S. actually gets most of its imported oil from Canada and Latin America.

America is one of the world's largest oil producers, and close to 40 percent\*\*\* of U.S. oil needs are met at home. Most of the imports currently come from five countries: Canada, Saudi Arabia, Mexico, Venezuela and Nigeria.

(\*\*\*note that the percentage is now higher due to “fracking” in the North Dakota Bakken and other oil shale formations in the U.S.)

Canada is far and away the biggest purveyor of crude to its southern neighbor, hitting a record 2.2 million barrels a day last year as its share of the U.S. market grew by 12 percent. **Bottom line...we do NOT get most of our oil from the middle east. Thanks Canada©**

## RENEWABLE ENERGY:

Renewable energy sources including biomass, hydropower, geothermal, wind, and solar provides about 9% of the energy used in the United States. Most renewable energy goes to producing electricity. (source EIA)
